Professional Summary

Full Stack Developer specializing in MERN stack, Next.js, and TypeScript with experience building scalable SaaS applications, payment gateway integrations, and role-based systems. Skilled in designing secure APIs, cloud deployments, and modern UI architectures with focus on performance and scalability.

Experience

- Full Stack Developer (Remote), ICodify Technology** 04/2026 – Present
- Deployed and managed full-stack applications using Docker and AWS EC2
 - Built scalable backend systems with focus on production stability and deployment workflows
 - Integrated analytics tools (PostHog, Google Analytics) for user behavior tracking
 - Implemented Calendly integration for scheduling and automation workflows
 - Worked on AI-driven search optimization concepts (AEO & GEO)
- Junior Full Stack Developer (Part-time), Techmandu solution** 04/2026 – Present
- Developed backend systems using modular architecture and scalable API design
 - Worked in monorepo and learned about microservices-based environments
 - Built and integrated secure REST APIs with clean architecture practices
 - Improved backend performance and collaborated across multiple services
- Junior Frontend web developer, IOXET Pvt. Ltd.** 08/2025 – 04/2026
- Built SaaS-based frontend applications using React.js and Next.js
 - Integrated eSewa and Khalti payment gateways for Nepal-based platforms
 - Developed real-time features using WebSockets and dynamic form builders
 - Worked on SEO optimization and AI-integrated workflows in startup environment
- Frontend web developer Internship, Panacea solution Pvt. Ltd.** 07/2025 – 08/2025
- Worked on scalable frontend architecture and reusable component structures
 - Followed industry-level coding practices and clean folder architecture
 - Gained experience in modern frontend development workflows

Projects

- Relocation Booking Platform (Full Stack), <https://texch.vercel.app/>**
- Built role-based platform (Customer, Driver, Admin) using Next.js + TypeScript
 - Implemented JWT auth, Google OAuth, and protected routes
 - Designed full booking lifecycle system with Prisma + PostgreSQL
 - Developed REST APIs for bookings, users, services, and analytics
- E-Commerce Payment Integration (Nepal Payment Gateway Demo), <https://wallets-sooty.vercel.app/login>**
- Built full-stack MVP integrating eSewa & Khalti payment gateways
 - Implemented secure JWT authentication and order lifecycle system
 - Designed dual payment flow with server-side verification
 - Built backend using Express, Node.js, and TypeScript

MediCare E-Commerce Platform, <https://medicarelifeharmony.vercel.app/>

- Built product-based e-commerce system using MERN stack
- Integrated React Query for efficient data fetching and caching
- Deployed frontend on Vercel and backend on Render

News portal - classic-pape -paperio, <https://news-portal-swart-zeta.vercel.app/>

- Built role-based news management system (Admin, Journalist, Viewer)
- Implemented secure authentication and REST API architecture

Tech Skills

Languages

JavaScript (TypeScript), Java, C#, OOP

Backend

Node.js, Express.js, MongoDB, PostgreSQL, Prisma

DevOps

Docker, AWS EC2, Vercel, Render

Integrations

eSewa, Khalti, PostHog, Google Analytics, Calendly

Frontend

React.js, Next.js, Tailwind CSS, Shadcn UI

State/API:

TanStack Query, Zustand, React Context, Axios

Auth & Security

JWT, OAuth, Session Management

Others

WebSockets, REST APIs, AI API Integration

Certification

Full stack MERN training, Broadway

Infosys Pvt. Ltd. 04/2025 – 06/2025

Education

Bachelor's Degree (BCA), Patan Multiple Campus

2022 – Present

Patan, Lalitpur

+2, science, Sainik Awasiya Mahavidyalaya

2019 – 2021

- Grade: B

Kharini, Chitwan

SEE, Sainik Awasiya Mahavidyalaya

2018 – 2018

- Grade: A

Teghari, Kailali
